

Moving from Earth

Moving from Earth

It is May 25th 2040 and you and your classmate have just landed on the Moon. You will live there for 15 years. Work together and makes notes to describe the situation.

Will you rename the Moon? _____

Life on the Moon:

- no life
- only planet life
- plant and animal life
- plant, animal and intelligent life

Size of the Moon:

- easy to tour
- impossible to know
- the same size as Earth
- much bigger than thought

How many hours of daylight are there?

- The same as on the Earth
- 18 hours
- 3 hours
- No difference: no night or day

Habitat:

- adaptable
- possibilities to turn it into somewhere similar to Earth
- completely new possibilities
- frightening

Temperature on the Moon:

- much warmer than expected
- a little colder than Earth
- very similar to Earth
- impossible to bear

What did you take with you to the Moon? Agree on 10 things you chose:

- medicine
- water
- food
- oxygen tank
- clothes
- space suits
- coffee
- pets
- computers
- television
- camera
- books
- guns
- farm tools
- fishing rod
- tents
- soap
- sunscreen
- mirror
- lighter
- compass
- hammock
- something of your choice
